0993 281 2702

SUMMARY

Fourth-year Computer Science student focused on software development, web technologies, and modern backend systems. Experienced in building full-stack applications using React, Django, PHP, Flask, and PostgreSQL. Passionate about problem-solving, scalable systems, and developing practical technology solutions with strong analytical and adaptability skills.

EDUCATION

College	Taguig City University
Course	Bachelor of Science in Computer Science
School Year	2022 – Expected 2026

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Backend:** Python, Django, PHP, Flask
- **Databases:** PostgreSQL, phpMyAdmin, Supabase
- **Tools & Platforms:** Git, GitHub
- **Soft Skills:** Critical Thinking, Problem Solving, Adaptability, Attention to Detail, Time Management

TECHNICAL ROLES I AM OPEN TO

- Web Development (Frontend / Backend / Full Stack)
- Software Developer
- AI Engineer
- Entry-Level IT / Technical Support

PERSONAL PROJECTS

AI SCHOLARSHIP EVALUATION SYSTEM (TCU-CEAA) — Thesis Project

Tech Stack: Python, Django, React, Tailwind CSS, PostgreSQL

Developed an AI-driven scholarship and grant evaluation platform that automates applicant screening using OCR, computer vision, NLP, and document verification models. Built a secure backend evaluation pipeline and a user-facing submission workflow for fast and transparent scholarship scoring. Deployed the system using a scalable architecture that reduced manual review time and improved evaluation accuracy.

ALUMNI TRACKER – ANALYTICS PLATFORM — Personal Project

Tech Stack: HTML, CSS, JavaScript, React.js, Tailwind CSS

Developed a React-based dashboard for graduate employment analytics and reporting. Built interactive charts using Chart.js, processed datasets with PapaParse, and implemented role-based access for administrators and viewers. Designed a responsive interface with Tailwind CSS and deployed the platform on Vercel for scalable academic reporting.
